

December 16, 1978

Dear Dr. Vasily Kuprevich, and Friends for Peace at the Academy:

Starmast Publications of the One World Family cooperative would like to send copies of the enclosed books to the members of the Academy accompanying this letter. Would you be so kind as to provide us with the proper mailing addresses for these members.

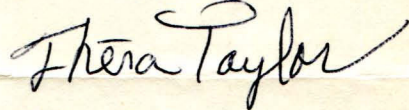

The author of these books, Mr. Allen Michael, has already met with many members of the Soviet Consulate in San Francisco, and was also a friend of the late Dr. Holland Roberts, founder and president of the American Russian Institute in San Francisco. Mr. Michaels has long respected the open mindedness of the Soviet people and acknowledges the fact that your government is much more "up front" about the reality of UFO-ETI than the government of the United States.

These books present a thorough synopsis of the UFO enigma, past, present and future; in regards to the actual plan extraterrestrials have been carrying out involving this planet. We would like to make future plans for Mr. Allen Michael to address the Academy.

Looking forward to hearing from the Academy about these matters.

Moscow Academy of Sciences
Moscow, USSR

Sincerely yours,

Thera Taylor

**THE ONE WORLD FAMILY
INTERNATIONAL FRIENDSHIP SOCIETY**
World Headquarters: Stockton, CA 95206
345 West Clay St., (209) 465-1422

To advance the idea of world brotherhood on this planet by promoting international friendship events, the One World Family International Friendship Society was established February 12, 1976 to foster cultural relations between all peoples of the world.

The purposes of the One World Family International Friendship Society shall be realized through the presentation of cultural programs. This society shall, in the best interests of humanity, advance the bringing together of all peoples of the world to achieve the understandings which are necessary and vital to world peace.

Our world civilization is heading into a future of fantastically advanced technology and know-how which can truly benefit us all as a "One World Family" when all people are working together for the common good of all in an atmosphere of real world peace. Then it will be possible to bring in the new age of absolute freedom, security and abundance on one high standard for everyone through worldwide service programs that fulfill our needs as one people.

The One World Family International Friendship Society is dedicated to the creation of a healthy world environment for all people on the planet — thru constructive working fellowship on a worldwide scale — to secure a bright future for our children, now.
