

More Flying Discs Are Seen Sunday

PENDLETON, Ore., June 30-(AP)—Mysterious objects, flying high and fast, were reported today by two Pendleton area residents.

Mrs. Morton Elder, McKay creek farm wife, reported seeing seven "perfectly round, umbrella-like" objects flying in a northwesterly direction about 11 a.m. Sunday.

She said the "planes" made a humming noise that resembled the sound of a musical top.

She said they were flying in a perfect wedge-shaped formation at a "very fast" speed. She described them as "white as snow" and "round like a mushroom or an umbrella."

LA GRANDE, June 30-(AP)—The end of the world is imminent, declared Rev. Lester Carlson, pastor of the Gospel Tabernacle church in La Grande, today after "flying saucers" were reported by several persons here.
