

 A banner for World UFO Day 2025. It features a dark blue background with a bright blue beam of light shining down from a circular object at the top, resembling a UFO. The text "World UFO Day 2025" is written in white, bold, sans-serif font. Below it, "July 2" is written in a smaller, lighter blue font. The left side of the banner has a solid blue shape.

World UFO Day 2025

July 2

What is World UFO Day?

World UFO Day, celebrated every year on July 2nd, is a global observance dedicated to all things extraterrestrial – a day to look up at the skies and wonder: are we alone out there?

From flying saucers to government disclosures, alien abductions to pop culture classics, this day invites believers, skeptics, and the just-curious to explore the mysteries of unidentified flying objects (UFOs). Whether you're into science, science fiction, or simply fascinated by the unexplained, World UFO Day is a chance to dive into the unknown with curiosity and imagination.

When is World UFO Day?

World UFO Day is observed annually on July 2nd, commemorating the date of the famous Roswell Incident in 1947 – one of the most well-known and debated UFO events in history. In 2025, July 2nd falls on a Wednesday, making midweek the perfect time for a little intergalactic intrigue.

Why World UFO Day Matters

UFO sightings and stories have captivated human imagination for decades. But beyond the thrill of the unknown, World UFO Day is also about encouraging open conversation and scientific inquiry into the mysteries of our universe.

It's a reminder that discovery starts with curiosity – and sometimes, looking up can lead to big questions about our place in the cosmos.

How to Celebrate World UFO Day

- Look to the skies – Grab a blanket and do some stargazing. You never know what you might see!
- Watch a classic UFO film – From Close Encounters to Arrival, get your sci-fi fix.
- Host a UFO-themed quiz or party – Alien cupcakes, anyone?
- Read up on real sightings – Explore declassified files, documentaries, and recent reports.
- Share your thoughts – Post your favourite theories or stories using the hashtags below.

History of World UFO Day

World UFO Day was first observed in the early 2000s by UFO researchers and enthusiasts to raise awareness around UFO phenomena and encourage governments to be more transparent about sightings and reports.

The date July 2nd was chosen in honour of the Roswell Incident, where a mysterious object crashed in New Mexico in 1947, sparking decades of conspiracy theories and pop culture fascination. Today, it's a mix of fun, curiosity, and scientific discussion — celebrated worldwide by those who keep an eye on the skies.

Fun Facts About UFOs

- The U.S. government has officially released footage of unidentified aerial phenomena (UAPs), renewing global interest.
- "UFO" stands for Unidentified Flying Object, but the newer term "UAP" (Unidentified Aerial Phenomena) is now more widely used in official reports.
- Roswell, New Mexico holds an annual UFO Festival with costumes, speakers, and alien-themed events.
- The first modern UFO sighting was reported in 1947 by pilot Kenneth Arnold, just weeks before Roswell.
- Belief in extraterrestrial life spans across cultures and centuries – from ancient texts to modern sightings.
