FUPEC COLOMBIA
Boletín Informativo Mayo de 2004

Este boletín está dedicado a la Virgen María, parte esencial del Plan Cósmico, quien con sus apariciones y mensajes a alumbrado los caminos de la humanidad

NOTICIAS por Carlos Hernando Cuervo

El siguiente informe corresponde a un avistamiento de OVNIS ocurrido recientemente y constituye uno de los relatos mas completos y analizados que conocemos. Su procedencia es de un organismo estatal, cosa que sorprende ante el ocultamiento sistemático de información por parte de muchos gobiernos, lo que a de un carácter concidencialmente cerci, paradójicamente, contiene algunos de los principios de funcionamiento de naves nota o extraterrestres dados por algunos contactados. Aunque hace énfasis solo en lo técnico, no deja de ser muy interesante.

El 06 Marzo de 2004 un grupo integrado por 8 militares de la Fuerza Aérea de México realizaba un sobrevuelo de vigilancia a bordo de un avión bimotor MIRLIN C26A. Entre las 5:00 y 6:30 pm, el operador de radar abrió en la pantalla la presencia de ecos desconocidos, tras ser informado, el piloto de la aeronave militar tomó rumbo hacia donde el operador de radar le indicó.

Sorprendentemente, al estar en el punto en donde se suponía debían estar las aeronaves no identificadas, la tripulación del avión no abrió visualmente los objetos.

Por lo tanto, solicitaron al operador de la cámara infrarroja FLIR, que observara el monitor de la misma para tratar de encontrar el tráfico desconocido que era registrado, increíblemente, fue únicamente por medio de este dispositivo, que tiene la capacidad de detectar ondas de calor a través de la visión nocturna, que lograron observar los objetos que, a través de la pantalla de aeronave no identificados. Ante tan inusual acontecimiento, oficiaron de la Fuerza Aérea decidieron dar seguimiento a lo que detectaron con la cámara.

Durante al menos 30 minutos, siguieron a las extrañas luces; conforme avanzaban hacia su objetivo, la pantalla del radar y la cámara FLIR, comenzaron a detectar más ecos desconocidos que se iban sumando a los que ya se tenían registrados. Sumando un total de 11 objetos de formación esférica.

De esta flotilla, sobresale la presencia de un objeto de enormes proporciones y que de acuerdo al testimonio del piloto de la aeronave, podría haber tenido el tamaño de un edificio de 15 pisos, basándose en la lectura de la cámara.

ONTACT

Program
PRVÝ KONTAKT

Program **Prvý kontakt** je celoštátnou akciou, zameranou predovšetkým na zaznamenávaní pozorovaní u UFO v Slovenskej republike.

Ide o získanie vierohodných a overiteľných informácií o fenoméne UFO, pretože všeobecná znalosť tohto fenoménu je u nás doposiaľ veľmi povrchná, ovplyvnená v súčasnosti neserióznymi informáciami a rozmanými mýtmi.

Program Prvý kontakt vznikol z iniciatívy rozných bádateľských smerov a ide o neformálne združenie slovenských amatérskych bádateľov, spájajúcich za účelom napĺňovaní programu, ktorý ma byť realizovaný sieti jednotlivých bádateľov v Slovenskej republike.

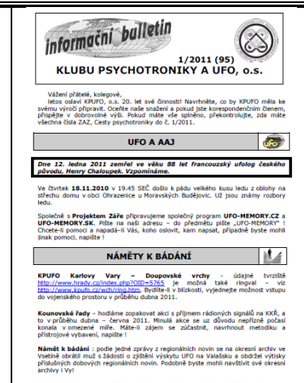

Hlavné ciele programu

1. Komplexný zber, vyhodnocovanie informácií o fenoméne UFO na území Slovenskej republiky a ich štatistické spracovanie, cestou vytvorenného tímu bádateľov.

2. Konzultácie týchto informácií s vedeckými odborníkmi rôznych odborov. Zároveň tak vzbudiť záujem vedeckej strany o seriózne skúmanie tohto fenoménu.

3. Využívať rozných médií k lepšej a serióznejšie informovanosti našej verejnosti v tejto problematike, najmä internetu (firstcontact.com)

(INDEPENDENT AND OBJECTIVE RESEARCH)

WHAT CAUSED MYSTERY CRASH IN NORTHERN IRELAND?

In mid-March, anyway still surrounds the reported crash of an unidentified flying object in Northern Ireland on the night of Tuesday the 13th of February. In late February, UFO Magazine's website carried the story in their NEWSFLASH section, under the rubrics of Major UFO Incident in Ireland. According to the report, their Yorkshire offices were alerted a few days after the incident, when veteran Belfast ufologist, Mike Johnston phoned to say that his father - and others across the province - had heard what sounded like a sonic boom, and seen a small dark object, trailing smoke, crashing into mountainous terrain in Fermanagh. Another odd cause is from Bangor-based Paranormal Watch member Gerry Kelly-Gorman, taking a similar tack. From that time until now we have received no further explanation as to what happened that night.

Two points of interest come to light however. On Thursday, 15th the story of a damaged aircraft being airlifted from mudflats at the mouth of the Foyle river by an RAF Chinook appeared in the Star Newspaper, while it was also reported on RTE radio during Wednesday 14th that the British Army had cordoned off an area of land near Tempo, close to the previous night's reported crash site, after the discovery of what was termed "a suspicious object". This very late put down to being a find of paramilitary explosives, but the timing and location did arouse some curiosity...

The date of the removal (and crash?) of the Provost doesn't tally with the Fermanagh incident, but it is the only incident in Northern Ireland from seventeen time that has so far come to light that might conceivably be linked to it, though there is also quite a gap, geographically!

As we go to print, we have sent detailed queries to various agencies and any comment or suggested solutions to this mystery will be passed on to our readers. The bodies to which we have posed questions to include the Office of the Superintendent at Co'ma town garda Station, the Garda Press Office at Garda HQ in Dublin, Armagh Finnamrian, the UK MoD, etc. - D.B. 19.03.01

Cielo Insolito (CISU)

CISU - FLASH

Italian UFO News in Brief
by Centro Italiano Studi Ufologici (CISU)

Issue No. 1 — 28 August 1996

WELCOME TO CISU-FLASH

This is the first issue of an experimental, free electronic newsletter meant to keep foreign ufologists informed about the Italian UFO scene, with particular emphasis on sighting reports.

It will be issued on an irregular schedule (roughly weekly, in our intentions), in order to complement our ITALIAN UFO REPORTER (ITUFOR), which is regularly back on its restored monthly schedule.

SUMMARIZED UFOs IN ITALY

Several UFO sightings were reported in August, at least three by couples.

The latest came from Matera di Monte Chiesa (Savona): on August 22, at 21:30, several campers were astonished at watching a bright red ball, as large as the moon, hovering for afew minutes and then silently going away.

Nearly identical and contemporary to the above, a large circular light frightened a number of people from Ponzia (Caserta) as it hovered for a few minutes and was filmed before speeding away.

Camping tourists in Taranto (Savona) were also witnesses to a white, then yellow, round light oscillating for half an hour at a.m. on August 17.

PHOTO AND VIDEOS

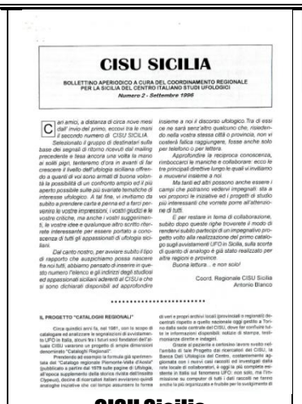

Among other Italian sightings we had a photo case in Livigno (Sondrio) and two home video case: Vicenza in early August; a bright light splitting in two, and a fiery object passing a tunnel.

TRACE-LANDING REPORTS

Two trace-landing cases were also reported: a 7 meters circular ring of burned grass was found at Lago Trasimeno (Perugia) in early August; on the same hill where two motorbikes had seen a white-blinker brightness on the night.

On the night of August 17, two men reported watching a red bright disc low-maneuvering above a field near Fontana Rosa (Avellino), where a round area of yellow grass was discovered, 7 meters wide.

CISU Flash

CISU SICILIA

BOLLETTINO APERIODICO A CURA DEL COORDINAMENTO REGIONALE PER LA SICILIA DEL CENTRO ITALIANO STUDI UFOLOGICI

Numero 2 - Settembre 1996

Cari amici, a distanza di circa nove mesi dall'invio del primo, eccovi tra le mani il secondo numero di CISU SICILIA.

Selezionato il gruppo di destinatari sulla base dei segnali di ritorno ricevuti dal mailing precedente e tesa ancora una volta la mano ai soliti ignoti, lanciamo ora in avanti di un crescere il livello dell'ufologia siciliana offrendo a quanti di voi sono animati dal desiderio la possibilità di un confronto ampio ed il più aperto possibile sulle più svariate tematiche di interesse ufologico. A tal fine, vi invitiamo da subito a prendere carta e penna ed a farci pervenire le vostre impressioni, i vostri giudizi e le vostre critiche, ma anche i vostri suggerimenti, le vostre idee e qualunque altro scritto riteniate interessante per essere portato a conoscenza di tutti gli appassionati di ufologia siciliani.

Dal canto nostro, per avviare subito il tipo di rapporto che auspichiamo possa nascere fra noi tutti, abbiamo pensato di inserire in questo numero l'elenco e gli indirizzi degli studiosi ed appassionati siciliani aderenti al CISU e che ci sono direttamente disponibili ad azionfondere insieme a noi il discorso ufologico. Tra di essi ce ne sarà senz'altro qualcuno che, risiedendo nella vostra stessa città o provincia, non vi costerà fatica raggiungere, fosse anche solo per telefono o per lettera.

Approfondire la reciproca conoscenza, rimboccarci le maniche e collaborare: ecco le tre principali direttive lungo le quali vi invitiamo a muovere insieme a noi.

Ma tanto ed altro possono anche essere i campi che potranno vederci impegnati: sta a voi proporci le iniziative ed i progetti di studio più interessanti che vorrete porre all'attenzione di tutti.

E per restare in tema di collaborazione, subito dopo queste righe troverete il modo di rendere subito partecipi anche gli impegnativi propositi volti alla realizzazione del primo censimento degli avvistamenti UFO in Sicilia, sulla scorta di quanto di analogo è già stato realizzato per altre regioni e province.

Buona lettura... e non solo!

Coord. Regionale CISU Sicilia
Antonio Bianco

IL PROGETTO "CATALOGHI REGIONALI"

Una questo anno, nel 1981, con la stesura di catalogazione ed analizzare le segnalazioni di avvistamenti su UFO in Italia, stiamo tra i buoni sono fondatori dell'associazione CISU vastrano un progetto di ampia dimensioni denominato "Cataloghi Regionali".

Il progetto, che abbiamo già iniziato già quest'anno con due "Cataloghi regionali: Piemonte-Valle d'Aosta" pubblicato a partire dal 1979 sulle pagine di Ufologia, ed ripreso successivamente dalla storica rivista Ufologia, Quaderni di ricercatori Italiani avvistano questi anche insieme che con tempo, continuano in tutte le regioni d'Italia.

di uno e propri archivi locali (provinciali o regionali) dedicati ripetto a quello nazionale oggi gestito a Torino dal CISU, in modo da poter disporre di una maggiore e più approfondita documentazione di base e di una più rapida ed immediata consultazione di schedari.

Grazie al paziente e certosino lavoro svolto nell'ambito di Sala Ufologica dei ricercatori del CISU, la quale ha già completato la catalogazione di circa duemila casi i nuovi casi saranno poi inseriti negli archivi locali di collaboratori, e oggi la più completa esistente in Italia sul fenomeno UFO: non solo, ma l'immissione su computer di tutti i dati raccolti ne faciliterà la più approfondita e fruibile per la svolgimento di
